## BONDS

Bond policy and fees, effective 7/1/2025:

The City of Plymouth requires a performance bond in order to protect the public and public property. This bond is held in reserve until the project is completed, inspected, and approved to ensure that property is restored to an acceptable condition.

Fees shall be paid with a certified check, money order, cash, or surety bond. The fees are accumulating. Each location that is affected requires the corresponding bond fee.

If the property is not restored to acceptable condition within six (6) months from the last date of inspection, then the Community Development Department shall contact the bondholder in writing outlining the outstanding work and request completion. If the bondholder does not respond and/or complete the work within 30 days of the written notification, the Community Development Department shall consider the work abandoned and bond monies will be forfeited.
